

- ▶ Successor to the proven Cab Assistant
- ▶ Manual transfer of your taximeter and tachograph data via Cey
- ▶ In case of driver Cey getting lost, all data can be read out with the owner Cey
- ▶ Compact and robust Cey memories made of stainless steel guarantee trouble-free use without abrasion for years – even under extreme conditions!

HALE CEY ONLINE – YOUR ACCOUNTING EXPERT

HALE Cey online is the successor of the HALE Cey System with Cab Assistant, which has been well-tried since 1997 and is the most widely used accounting software in Europe.

With Cey online you increase the efficiency of your taxi fleet and reduce operating costs.

The driver brings money and data on the Cey. The stored taximeter and tachograph data are transferred to the certified HALE data center without loss – the data are quickly accessible for comprehensive evaluation.

Continue using your well-tried Cey System and complete it with HALE Cey online for recording working time and pauses. Enhanced features and possibilities of HALE Cey online provide an even better overview and increased transparency for your accounting.

Focus on your core business and rely on us.

HALE – a strong partner. Everything from one source.
